

### CAMPAIGN ENDORSEMENT FORM

Research shows that giving children the basic social, emotional, and academic tools, as well as the health treatment they need to be better students, improves our schools and communities. To meet these goals, the groundWork™ Campaign is working to promote state investments and policies that will address the needs of Ohio's youngest children. This approach includes providing the following opportunities:

- Provide voluntary access to high-quality early care and education programs for all children in Ohio in any appropriate setting designed to meet families' unique needs.
- Provide voluntary assessment, screening, and treatment for social and emotional problems for children from birth to age six in Ohio.
- Increase access to health services and supports for children from birth to age six in Ohio.
- Provide voluntary access to full-day kindergarten for every child in Ohio.

By signing below, I endorse groundWork and its goal of providing every child in Ohio with a fair start.
