Young children can't vote—

but the decisions made by elected leaders shape their health, learning, and future.

If you're not sure whether you're registered—or if your information needs updated because you've moved or changed your name—you can take care of it in just a few minutes.

Registering to vote is an easy and important first step toward making Ohio the best place in the nation to be a young child.

Register or update your voter
registration by Oct. 5
to vote in Ohio's Nov. 3
general election.
