

Key Priorities

We cannot secure a strong future for Ohio without prioritizing the needs of our youngest Ohioans and the families who care for them.

While Ohio has made progress in fostering a policy landscape that supports children and their families, there is still significant room for improvement. On the heels of an unprecedented pandemic that has had far-reaching, negative impacts on the health and well-being of Ohio's children and their families, it is more critical now than ever to lay a strong foundation for our young children and their families.

Our budget priorities to improve early learning and health outcomes for young children and their families include:

- Ohioans with low incomes to support the healthy development of children and improve parental workforce participation.
- Investing in the actual cost of child care that supports a fairly compensated and competitive professional workforce.

- Building capacity for child care for infants and toddlers.
- Expanding access to and better connecting families with critical resources that improve the health of mothers and babies.
- Improving Medicaid coverage and quality to meet the unique needs of mothers and babies.

The State of Young Children

Hardin County

1,749 children under 5 years old

20.1%

of children under 5 years old are living in poverty²

Children are accessing
Publicly-Funded Child Care (PFCC)³
(as of July, 2022)

of PFCC programs earned

of PFCC programs earned a high-quality rating⁴ (as of July, 2022)

Children are accessing public preschool through Early Childhood Education grants (2022)⁷
